THE WEEKEND

Book in negotiation phase with the French publisher L'Agrume

Original Title: *The weekend*

Author: Judy Kaufmann

The Weekend is an illustrated album for toddlers.

The idea is to bring into play the differences between what we do in the week and on the weekend.

Through fun animals (especially dogs and wolves), we will find ways to explain some differences between the five days of the week and the two days of the weekend.

In the course of the week story, there is always a character who questions everything and who in the end will be the only one who will be working during the weekend...

NATIVES OF OUR LAND

Book created together with my twin sister Deby in negotiation phase with the Chilean publisher Saposcat

Natives of our land is a book that allows to discover the first inhabitants of the territory that today we know as Chile. Through simple rhymes and illustrations, the characters present themselves and their culture.

Each drawing is divided into three different movable parts that allow multiple combinations of the characters and their descriptions. In addition to presenting the original cultures of our land, the book allows us to mix them to create new possible cultures.
